TIMOTHY P. CALLAHAN
SUPERVISORY PATENT EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose an apparatus and method thereof comprising elements being configured as recited in claims. Specifically, none of the prior art teaches or fairly suggests, among other things, the following limitations:

- generating a first signal having a third phase between said first phase and said second phase, said third phase determined by said first control signal;
generating a second signal having a fourth phase between said first phase and said second phase, said fourth phase determined by said second control signal;
and generating a third signal having a fifth phase between said third phase and said fourth phase, said fifth phase determined by said fourth control signal as required by claims 1, 8, 16, 35, 36 and 37.
- generating a third signal having a third phase between said first phase and said second phase; generating a fourth signal having a fourth phase between said first phase and said second phase, said fourth phase not equal to said third phase; and generating a fifth signal having a fifth phase between said third phase and said fourth phase as required by claim 9.
- the *first, second and third phase mixers* being configured as recited in claims 17, 27 and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2816
